

To Whom It May Concern:

This is in regards to MB Docket No 04-233. I have been a faithful listener to K-LOVE music for years. Though it is transmitted from California I find it comforting to know I can get it most anywhere my husband is transferred to and still feel "at home." I was disappointed to hear the FCC is considering taking my favorite station off the air and replacing it with LPFM! K-LOVE is a listener funded radio station which I take to mean if the community didn't want it on the air they would choose to cancel the programming by not funding it however the station remains on the air and continues to grow. Replacing this station wouldn't make me listen to the new station or something different already on the air I would simply have to invest in more CD's. I believe that K-LOVE plays an important part in the community by offering a safe place to tune into when the stresses of the world become too much. They always have a safe listening environment and also offer a 24 hour phone line for prayer and support. The testimonies given each day prove that a positive and encouraging radio station can change lives!

Please don't take my K-LOVE off the air, I don't know what I'd do without it!

Sincerely,

Kathryn A Meyer
